

THE CITY OF SAN DIEGO

M E M O R A N D U M

**DATE:** May 4<sup>th</sup>, 2009  
**TO:** Distribution  
**FROM:** Afshin Oskoui, City Engineer  
**SUBJECT:** Adoption of Various Standard Specifications and Drawings

---

Effective immediately, the City of San Diego is adopting several important design standards. References to these publications in City contract documents and drawings must read as follows:

- 1) Standard Specifications for Public Works Construction, 2009 Edition (Greenbook), Document No. PITS0504091
- 2) City of San Diego Supplements (to be used in conjunction with Greenbook), Document No. PITS0504092

The following existing documents remain effective until further notice:

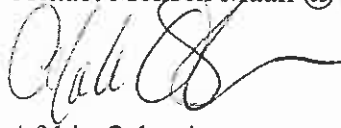

- 1) City of San Diego Standard Drawings, Document No. AEC1231063
- 2) The Caltrans 2006 U.S. Customary Unit Standard Plans, Document No. AEC0925061, Effective September 25<sup>th</sup>, 2006
- 3) The Caltrans 2006 (US Customary) Specifications, Document No. AEC0925062, Effective September 25<sup>th</sup>, 2006
- 4) California MUTCD dated September 26<sup>th</sup>, 2006, Document No. AEC1231064

Please note that for the convenience of designers and constructors, the City Supplement Amendments, the San Diego Regional Supplement Amendments, and City's Standard Special Provisions common to most projects have been consolidated into a single manual in this cycle.

Approximately two months will be allowed until July 5<sup>th</sup>, 2009 as the transition period for those projects in the advanced contract processing stage. After that date, all specifications and plans must reflect the new standards.
